NEXT TUESDAY.

On Tuesday next the greatest battle of the war will begin and terminate at the ballot box, and all true patriots will await the announcement of results with no less eagerness than if Grant and Sherman were in the midst of their last and decisive conflict. This week we issue the last sheet of the campaign; and we have hereafter but to estimate and publish results. Many of our subscribers will not receive this issue until after election, but to those who do we suggest a careful perusal of its contents which prove that nearly all true loyal democrats and the greatest statesmen and generals of that party have declared the Chicago platform and its candidates to be in effect agents for the destruction of the Government, and that to surrender it into the hands of McClellan and his coadjutors, would be equivalent to a surrender of our armies to Jeff. Davis.

We may also add to the opinion of these men, that of Hon. H. M. Rice, an ex-democratic U. S. Senator from this State, who now declares publicly that the plan of Mr. Lincoln for recovering the rebellious States is the only true theory by which a permanent restoration of the Union can be obtained. The testimony of so many of the old time democracy, who have left the misanthropic pool of treason, in which the originators of the Chicago platform would sink every vestige of the old Union, is sufficient to convince all who are susceptible of conviction that the true interests of our Government lie in the re-election of Abraham Lincoln.

Go, then, on Tuesday next to the polls, stripped of all partisan bias, and in full view of the solemn oath many of you have taken to maintain the Government of your adoption or nativity, vote heartily and earnestly for "no compromise with traitors in arms," for no disruption of the Government, for no more slavery upon the free soil of America, and also for a United Government upon the basis of liberty universal, and for one who in the future as in the past will continue a series of successful efforts to restore the Union upon these principles which will reflect upon our country honor and not disgrace, a permanent peace and not civil discord, and restore a great and beneficent Government to its former greatness dismantled of that cloud of slavery and secession which for years has threatened this deluge of war and woe.

The testimony of all great and good men is that Abraham Lincoln is the only candidate before the people in whose hands the reins of Government can safely be trusted. A word to the wise is sufficient.

Electioneering Lies.

Let those who go to the polls next Tuesday be careful how they are influenced by false statements of democratic papers and persons. They will be manufactured from whole cloth to influence credulous voters.

What They Are Told Against?

For ten years preceding the accession of the present President, the destinies of this nation were directed by Millard Fillmore, Franklin Pierce and James Buchanan, now all copperheads. At the end of that period the country found itself engaged in a gigantic civil war, with a depleted treasury and an enfeebled army and navy. We had no success among all the "Governments" of the world, and the national authorities had lost the respect of every honest citizen at home.

With these facts of history staring us in the face we are asked to place the very party in power which has done its utmost to destroy the country, and to commit the interests of the Republic into the hands of those whose policy has brought it to the verge of ruin.

Definition of Peace Democracy.

1st. The abandonment of every principle of justice and truth.

2d. The denouncing of every act of Government to bring armed traitors to justice.

3d. Giving aid and comfort to traitors in arms, namely, information, sympathy, assistance in prison, in money, in stores of all kinds and from all places where practical.

This is a fair definition of the principles and purpose of the Peace Democracy which now rally around the standard of Little Mac and labor to put the nation once more under the ban of the slave worshipping Democracy.

"The Army of the Potomac is for McClellan," has been the standing boast of the copperheads, and especially with regard to that portion of the army which is from Pennsylvania.

Well, about two-thirds of the Pennsylvania portion of that army has been heard from: Union, 14,699; Democrat, 3,555. If this is not a vote of "want of confidence" in McClellan, we don't know what else to make of it.

Parson Brownlow says that full half the slaveholders of Tennessee are for Lincoln, not because they approve all his acts, but because they consider him the man to put down the rebellion; and that those who are for McClellan are traitors at heart, who do not want the rebellion put down.

Little McClellan is prepared to surrender everything he holds dear, for the benefit of his country—except his commission; which reminds us of Artemus Ward's resolve to see all his male relatives sacrificed rather than let the war fail.

When the news of Sherman's capture of Atlanta was announced at a Democratic meeting in a town in Ohio, at the time of the event, one of the speakers, much annoyed, pronounced it a "d-d Lincoln lie." This is about as all the malignants of the copperhead faction feel. The Chicago Times this morning in effect, pronounces Secretary Stanton's cheering war bulletins "Lincoln lies."

But they are true, nevertheless, much as the peace-sneaks and the rebels wish they were otherwise.

If Pendleton, whom the "Democrats" are running for Vice President, had his way, no finger would ever have been raised against the rebellion; for as a member of Congress, he refused to vote a dollar or a man for the army. If everybody had done as he did, the Southern Confederacy would now be an accomplished fact, and our Republic destroyed.

At a McClellan meeting in Cincinnati one of the banners represented McClellan and Jeff. Davis shaking hands—"exhausting all the arts of statesmanship," as McClellan says. The picture to suit loyal men would represent Davis on the gallows and Lincoln swinging him off. That's the way to dispose of traitors.

This is Stephen A. Douglas' estimate of Abraham Lincoln.

"He is a fearless, honest man, and the country will be safe in his hands."

This is what Mr. Douglas said to General Standish at Detroit in the autumn of 1860, just before Mr. Lincoln was elected.

A brave young officer with General Sheridan, writing from Winchester, reports that one of our Generals, when he saw the rebel line break and run at Fisher's Hill, exclaimed, "There goes another plank out of the Chicago platform!"

A Quaker gunboat is being fitted up in the most superb style for the use of Little Nap, on the occasion of his voyage up Salt river, on the 8th of next November. Her keel has already been constructed at Green Mountain hickory.

Its sides of Maine lumber, its bolts and bars of Pennsylvania iron, its bowsprit of Ohio ash, and its bottom is covered with Indiana copper. She will be called after her illustrious commander, The Little Nap. Pilot—one who knows the channel well, Clement L. Vallandigham. Every convenience for sleeping at night, and for little naps by day, and the trip will be so protracted and noticeable that

there will be no difficulty at all in "remembering" it. No postponement on account of the weather, or the war.

The Richmond Whig said of Little McClellan, a year ago, "how fortunate for us that he was chosen chief of the Yankee army!" And the same paper would like an opportunity of saying, how fortunate it is for us that he was chosen President of the Yankee Nation. Sorry we can't accommodate them, but we can't.

Pendleton writes to a Democratic meeting in Missouri, and speaks of every effort of his life being directed to the preservation of the Union. And yet the man said in Congress:

"If you find reconciliation impossible; if you differences are so great that you cannot or will not reconcile them, then gentlemen, let the seceding States depart in peace; let them establish their government and empire, and work out their destiny according to the wisdom which God has given them."

FRANZ GENERAL HEINTZELMAN.—The veteran Major General Heintzelman was present at a Union Meeting in Wheeling, on Wednesday evening, and made a brief speech in reply to repeated calls. He remarked that speaking was not his vocation, but he would say that, in his opinion, the best way to arrive at peace was by a vigorous prosecution of the war. He could see but two issues in this contest—an honorable peace, accomplished by a vigorous war, or an armistice, a Convention of States, a final dissolution of the Union and eternal war.

JOHN BRIGHT ON OUR PRESIDENTIAL CONTEST.

John Bright is the champion, in the British House of Commons, of human rights in Britain not only, but in America in all the world. His sympathies embrace the race. Let us hear such a man on our pending political canvass, and let us give heed to what shall fall from the lips of a judge so impartial, an observer so acute, a public man so well informed, a philanthropist who has no cant, and an English statesman who is no snob. He says:

"All those of my countrymen who have wished well to the rebellion, who have hoped for a break up of your Union who have preferred to see a Southern slave empire rather than a restored and free Republic, so far as I can observe are now in favor of the election of General McClellan."

"All those who have deplored the calamities which the leaders of secession have brought upon your country, who believe that slavery weakens your power and tarnishes your good name throughout the world, and who regard the restoration of your Union as a thing to be desired and prayed for by all good men, so far as I can judge are heartily longing for the re-election of Mr. Lincoln."

"I believe that the effect of Mr. Lincoln's reelection, in England and in Europe, and indeed throughout the world, will be this: 'It will convince all men that the integrity of your great country will be preserved, and it will cheer that Republican institutions, that an instructed and patriotic people can bear a nation safely and steadily through the most desperate perils.'"

THE NEW YORK ELECTION FRAUD.

The most gigantic and the meanest fraud ever attempted to be practiced upon a free people, next to the Chicago Platform itself, is the villainous scheme by which the friends of McClellan in New York have endeavored to cheat the New York soldiers out of their votes. The telegraph has brought us some of the details of this enormous iniquity; of the manner in which it was discovered; of the arrest of some of the chief perpetrators; of the trial of one of them, his conviction and his confession of the crime in all its bold, black, naked, astounding wickedness. The New York soldiers vote by proxy, that is to say, they send their votes home to friends to whom they give powers of attorney to deposit them in the ballot box on election day. The agents appointed by Gov. Seymour to distribute tickets, were of course in many cases the medium of their conveyance to their destination. These fellows had rendezvous in Baltimore, Harper's Ferry and elsewhere, where, before sending the votes home, they opened the envelopes and substituted McClellan for Lincoln votes. But this was the least part of the huge swindle. A gang of forgers was employed to forge ballots and powers of attorney for dead or absent soldiers, and to fill in the blanks with forged names of attorneys and witnesses. All this was brought

to light, proved, and even confessed by one of the villains (Domine) concerned in it, who was sentenced by a court martial to five years imprisonment. Others of the gang are in course of trial. These forgeries have been going on for weeks. Immense numbers of the forged votes have been sent to Albany. Large boxes full of them were seized at Baltimore. No one doubts the tacit complicity of the Copperhead leaders and authorities of New York in this villainous plot to make dead soldiers vote against the country they died to save, and to make living soldiers vote against the Government for which they are perilling their lives, or that Seymour and Belmont were knowing and consenting parties to the soundness of their agents.

The timely exposure of the conspiracy will overthrow the McClellan ticket with public odium, and for every forged soldier's vote deposited next Tuesday for McClellan, a hundred votes will be cast by an indignant people to attest their condemnation of the villainy and of its perpetrators.

HOSTETTER'S.

CELEBRATED Stomach Bitters.

A pure and powerful tonic, corrects and alleviates of non-ful efficiency in disease of the Stomach, Liver and bowels. Cures Dyspepsia, Liver complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Cramps and Spasms and all Complaints of either Sex arising from bilious weakness whether inherent in the system or produced by special cause. Nothing that is not wholesome and restorative after its nature enters into the composition of Hostetter's Stomach Bitters. This popular preparation contains no mineral of any kind, no deadly botanical element, no fiery excitant, but it is a combination of the extracts of pure botanical herbs and plants with the purest and most efficacious of all diffusive stimulants. It is well to be forewarned, that disease, such as far as the human system can be protected by human means against air, lies engendered by an unwholesome atmosphere, impure water and other external causes. HOSTETTER'S BITTERS may be relied on as a safeguard. In districts infested with Fever and Ague, it has been found infallible as a preventive and to it underappreciation of an attack, escape the scourge, and thousands who neglect to avail themselves of its protective qualities in advance are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being phlegm with quinine for months in vain, until fairly saturated with that dangerous alkali, are not infrequently restored to health within a few days by the use of.

Hostetter's Bitters.
The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic and hence it works wonders in cases of Dyspepsia, and in less confined forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves Constipation superinduced by irregular action of the digestive and secretory organs. Persons of feeble habit, prone to Nervous Attacks, Losses of Sleep and Fits of Langor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes. The agency of Bilious Colic is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented. As a General Tonic, HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay and Debility and Deceptive arising from Old Age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-energize and re-establish them. Last, but not least, it is

The Only safe Stimulant,
being manufactured from sound and innocuous materials, and entirely free from the acid elements present in wine or beer, in all the ordinary tonic and "couches" of the day. No family medicine has been so universally, and it may be truly added, deservedly popular with the intelligent portion of the community, as "Hostetter's Bitters."

MOST DIRECT ROUTE
FROM ALL POINTS IN

THE NORTH WEST TO
Chicago, Milwaukee, and

East and South

The advantages of this route, from all points in the Upper Mississippi to Chicago and the East, are superior to those offered by any competing line.

No change of Cars is made between Prairie du Chien and Chicago.

The Splendid First Class Steamer of the Prairie du Chien and St. Paul Packet Line, superior to all others on the Upper Mississippi, for speed, comfort, and convenience; making direct connection with Express Trains at Prairie du Chien.

By this route passengers are enabled to reach Chicago as quick, as by any other; getting a full night's rest and breakfast on board the steamer; making the change from Steamer to cars by daylight, and avoiding all Omnibus travel.

The distance from St. Paul to Chicago by this route is 460 miles. The distance via the La Crosse and Milwaukee Railroad is 462 miles. Over one mile of Omnibus Travel is incurred by taking the route via La Crosse and Milwaukee. These facts entitle this line to at least an equal share of the North-Western business.

What We Owe, and Our Ability to Pay.

When any party proposes to borrow our money, we naturally inquire, Is the borrower solvent? Is he worth property sufficient to pay his debts? The United States is now in the market for money to complete the great work of crushing the rebellion, now evidently tottering to its fall. Vast numbers would give their money, as they have already given their sons, without hope of other reward than the consciousness of having performed the great and solemn duty that devolves upon every true patriot. But we will leave all consideration of duty and patriotism aside, and, taking only the business view, merely glance at the inventory of wealth, which is the foundation of credit.

According to that authentic document, the U. S. Census Reports for 1860, the sum of the wealth of the entire country at that time was sixteen thousand one hundred and fifty-nine million dollars (\$16,159,000), of which only four thousand seven hundred millions (\$4,700,000,000) was in States now in rebellion, and of this, four thousand seven hundred millions, over one and a half millions was in slaves. When the war is prosecuted to a successful termination, the property of the entire country will have to contribute to the payment of the national debt. But it is not the wealth of *today* that will pay it; it is the wealth that will be accumulated in the series of years that will elapse before the debt is finally due. The increase of our national wealth from 1840 to 1860 was 64 per cent., and from 1850 to 1860, 124 per cent. If our country was worth sixteen thousand millions in 1860, is there any reason why its property should not double every succeeding ten years? War may stop this increase in part, but not entirely. Unlike the nations of the Old World, we have only begun to develop our resources. We have half a continent that the plow has never touched, gold mines that have only begun to be developed, and other mineral resources that only future generations will know of.

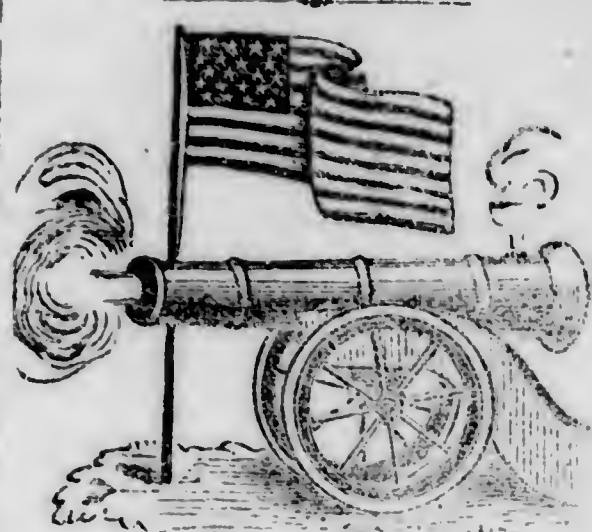

But let us avoid rhetoric, and keep to the bare facts of our statement. Taking the wealth of the nation as in 1860, without increase, and it stands at - \$16,159,000,000 The national debt, as stated at the last Treasury Report, Aug. 30, 1864, was 1,878,565,223 Surplus, \$14,280,434,777 The ratio of liability thus shown is only about 12 per cent. of the assets, and throwing the rebellious States quite out of the question, is only about 16 per cent. Would not a private individual with such a balance sheet be considered worthy of credit?

But again, at what others have done will best illustrate our own position. Take Great Britain, during one of the gloomiest periods of her financial history. At the end of her great wars in 1816, her wealth was estimated at ten thousand four hundred millions (\$10,400,000,000) and her national debt of that time was four thousand three hundred millions (\$4,300,000,000), or more than 41 per cent. of her entire property. In 1861 her property was stated at thirty-one thousand five hundred millions (\$31,500,000,000), while her debt was three thousand eight hundred and ninety millions (\$3,890,000,000) or was a charge on the property of the country of only about 12 1/2 per cent.

We write this not that we think any one fears the solvency of the country, but because we believe that every citizen should understand his general as well as individual account, and who will give the best security as well as the best interest for his money. We know of no form of investment that combines so many advantages as the Government Loans.

Attack of the Rebels Repulsed. New York Nov. 8.—The Tribune's City Point correspondent says of the rebel attack on Sunday night: The rebels made a charge on the 3d division of the corps in front of Petersburg last night about midnight, and were repulsed with

dreadful slaughter. The loss on our side was very light, and we captured about one hundred prisoners, with no loss by capture from our side.

LINCOLN TRIUMPHS!!! No Swapping Horses!!!

ELECTION RETURNS.
What the New York Tribune Claims.

New York Nov. 9. The Tribune claims all New England, Pennsylvania, Delaware, New York, Indiana, Maryland, Ohio, Michigan, Illinois, Wisconsin, Minnesota, Iowa and Kansas, for Lincoln. Total, 190 electors to all votes, independent of the Pacific States.

MARYLAND. BALTIMORE, Nov. 8. The Republican majority in Maryland is about five thousand. Baltimore city gives 12,000 majority for Lincoln again of 4,000 over October.

WEST VIRGINIA. WHEELING, Nov. 6. Returns from nine counties show a large Union gain over the October election. It is believed Lincoln will carry the State by a large majority.

MAINE. PORTLAND, Nov. 8. One hundred and eleven towns give Lincoln 29,895 and McClellan 17,975, showing a Union gain of 734 over the September election. The same proportion of gain throughout the State will give Lincoln about 18,000 majority.

RHODE ISLAND. Nov. 9. Returns from all the towns in the State but one give Lincoln 5,011 majority, and the soldiers' vote will increase it.

CONNECTICUT. Nov. 9. Lincoln's majority in Connecticut, in all but thirteen towns, is 2,194. The storm will prevent early returns.

NEW YORK. Nov. 9. The Albany Journal claims New York by at least 50,000 Union majority. The Argus claims the State 1,500 Democratic majority. The New York Times puts the Union majority at 8,000.

NEW HAMPSHIRE. The vote of 135 towns puts up Lincoln 23,689. This indicates a handsome Union majority on the home vote.

KENTUCKY. Nov. 9. Kentucky gives 20,000 Democratic majority. Lincoln's vote in this city exceeds any previous Republican vote ever cast in the whole State.

PENNSYLVANIA. Nov. 10. The Press estimates the Union majority in Pennsylvania on the home vote to be from 6,000 to 10,000. The Argus considers the result to be doubtful on the home vote.

WISCONSIN. Nov. 10. Wisconsin will give Lincoln about 8,000 majority on the home vote.

TENNESSEE. Nov. 9. Nashville gives Lincoln 1267 majority.

ILLINOIS. Nov. 8. The State has probably gone Republican, and will probably give a small Republican majority in the Legislature. The Democrats lose Congressmen the 8th, 13th and 7th districts, and probably Harris in the 4th.

CHICAGO, Nov. 8. The Union Ticket has a majority in the city of 1,745. The majority in the county will not be less than 4,000.

OHIO & INDIANA. Nov. 8. Scattering returns from Ohio and Indiana, show Union gains over the October election, and indicate that Lincoln has carried the two States by heavy majorities.

MASSACHUSETTS. Boston, Nov. 8. One hundred and seventy six towns in Massachusetts foot up, Lincoln 99,000; McClellan 36,031.

MINNESOTA. The returns in the First District indicate large Union gains. Aggregate Union gains from counties heard from, about 19,000.

If the Union counties not heard from show gains in anything like the same ratio, we shall have county gains of over 250,000 in that District. On the other hand the Copperheads

gain in other counties about 550 in all. Subtracting these, the general Union gain in the District will be about 1,900. The Union majority in the Second District is about 2,850, and we thus have a Union majority in the State of about 6,650, a gain of 2,650 over 1862.

McClellan States. The result in New Jersey is about 7,000 majority for McClellan. Two Republican and three Democratic Congressmen are elected.

Delaware has gone for McClellan by 450 majority. It is also stated that Kentucky and Missouri have gone Democratic, though but little has been heard from the West in consequence of the storm.

GRANT. HEADQUARTERS, ARMY POTOMAC, November 6.

There was quite a lively time between the pickets on the left of the line on Friday night, resulting in the loss of a few men on each side.

Yesterday a good deal of artillery firing took place near the Jerusalem turnpike, but without loss to us. Last night the pickets in the same vicinity opened fire shortly after dark, and kept it up sharply all night. At about 11 A. M. the rebels attempted to advance their picket line here to recover some ground which our men took last week, but our soldiers being wide awake made stern objection, and for an hour or two the exchange of shots was quite heavy. This is old contested ground, near what was called Fort Hell, where firing has been almost incessant and extremely hot for three months, for which reason the place was thus designated.

A citizen of Richmond arrived within our lines yesterday morning, having left that city four days ago. He was in the liquor business, but, fearing that the authorities would soon seize and put him in the army, he concluded to take an unceremonious departure. He tells the old story of want and destitution in Richmond, the high prices of necessities of life, &c. He also says, the rebels in front of Petersburg are busy mining under our works, but at what point could not be ascertained, as a strict guard is kept in the vicinity and no one allowed near the place, except those engaged in the work. Very little faith is placed in his statements. All is quiet throughout the lines.

A Brilliant Little Raid. NEW YORK, Nov. 8.

The Tribune's Army of the James correspondent says a brilliant little raid has just been made into Charles City county, by Maj. Stevens and Lieut. Davenport, of Gen. Butler's staff, aided by 100 cavalry. They crossed the James river on the 1st inst., at Bermuda Hundred, and rode out into the interior, scouting the country effectively for guerrillas, of whose presence in that neighborhood they had received intelligence. They captured thirteen, burned their headquarters, and brought home thirty head of sheep, forty cattle, and about 200 horses and mules.

They had information, before returning that the rebels had started a large party of cavalry in pursuit of them, but they managed to elude them, and arrived safely to-day with their plunder.

The Pirate Florida Captured. BOSTON, Nov. 8.

The Kearsarge arrived here last night. She brings as prisoners of war the chief engineer and boatswain of the Alabama, and Surgeon and 16 men of the pirate Florida.

The Florida arrived at Bahia Bay San Salvador, on the 7th. The Mach usett was also in harbor, waiting for coal. Capt. Collins determined to sink the Florida in port, and at 2 o'clock steered for her hitting her on the quarter with out doing great damage. Capt. Collins now called to her to surrender. The Florida replied that under the circumstances she would surrender. The Florida was towed to sea; some of her crew were ashore. No lives were lost. Twelve officers and 58 of the crew were captured.

The Capture of the Albemarle. NEW YORK Nov. 8.

The Goldsboro, N. C. Journal gives an account of the blowing up of the Albemarle, not differing materially from Lieut. Cushing's. The Journal adds, the Albemarle sunk in a few minutes, but the water being shallow her port-holes are not submerged, and though her guns deck is a few inches under water, her guns still command the channel. The injury can be repaired in two or three weeks.

All this will be done, but not by the rebels.

A White Woman captive with Indians.

From the Mandato Record. From Captain Davy, who was one of the officers sent to the relief of Capt. Fisk's party, we learn that the Indians have a white woman in their possession, who is compelled to live as the wife of one of the principal chiefs. From him we learn that while the Indians were besieging Fisk's party, they informed the

Captain by messengers that they had a white prisoner in their possession, and that they were willing to sell her. They said that she could write and that next day they would have her write him a letter, stating their terms. Accordingly the next day, a letter was brought to the Captain, written by the prisoner, which stated that she had been captured while crossing the plains west of Fort Laramie, and after a fight, was surrendered to the Indians upon condition that they would spare the lives of all the men, women and children connected with it. After the surrender, all were killed but this woman—her husband among the others. Her name is Mrs. Kelly, and she formerly resided somewhere in Kansas. She said that the Indians would sell her for thirty head of cattle, but told the captain not to give that number, as they would take a great deal less. A correspondence was continued in this manner for several days, in the course of which she told the captain that the Indians wanted him to proceed on his journey, but advised him not to do so, as they intended following him and would murder his whole party when they got him in the mountains. Finally the captain offered to give them three horses and a wagon load of provisions, which offer they said they would accept and would deliver her up next day. At the appointed time the Indians cleared out, taking their prisoner with them.

The relief party arrived at Capt. Fisk's camp about twenty days after the first attack. At the time of their arrival the Indians had left, and the Captain, almost despairing of assistance, had determined to proceed on his journey at a stated period one day after the arrival of relief. The camp was strongly entrenched, and capable of resisting a large attacking party.

NEWS BY CABLE AND NASHVILLE.

CAIRO, Sunday, Nov. 6.—Information has been received via Paducah that on Thursday night Gen. Forrest with a large force, made his appearance on the Tennessee River, divided his command and placed batteries on the river bank both above and below Johnsonville, within a mile and a half of town. At this time three gunboats and eight transports were lying at Johnsonville. At an early hour Friday morning, Forrest moved his batteries up and opened fire on these transports, which were fired by shells, and with the gunboats fell into the hands of the enemy after being disabled. The crews and officers of the fleet were all taken prisoners, and an immense amount of Government stores, together with considerable artillery, is said to have fallen into the enemy's hands.

The supplies deposited at Johnsonville likewise, supposed to have been taken. Casualties of the engagement not learned.

NASHVILLE, Saturday, Nov. 5.—Yesterday, the 4th inst., at daylight, the gunboat Undine, No. 55, captured a few days since by the rebels, came through the shute at Reynoldsburg Island and landed rebel troops. They then fired her, and left at 8 o'clock. Gunboats Key West and Elfin steamed down near the west side of Reynoldsburg Islands from Johnsonville and engaged a rebel battery of 24 pound Parrott guns. The gunboats were driven back badly damaged to Johnsonville at 2 P. M. The enemy's batteries opposite, above and below Johnsonville opened on the disabled gunboats that responded until the ammunition was exhausted and then blew up. The boats crew are at the Port in Johnsonville.

This morning the rebels commenced crossing in the boats of the Undine, about five miles above Johnsonville; two flat boats are also used. No fighting has taken place to-day. The rebels are engaged in burying the dead.

Gunboats from Paducah are in sight and reinforcements have arrived. Gen. Schofield takes command of the post of Johnsonville.

Intelligence from below Florence, states that the larger part of Hood's army is still south of the river, out of rations and clothing, and subsisting on the country.

A Substitute Swallows \$400.

Charles Wright, a Canadian who became substitute for a drafted man in Baltimore, after eating dinner at the Provost Marshal's office, was asked to hand over his money, which would be returned to him on his arriving at the rendezvous to which he was ordered. He replied that he had but \$50 which, from knowledge in his possession, the Provost Marshal did not believe. After a thorough search of the person of Wright, it was decided that he must have swallowed some money, and an emetic was procured and administered to him but without effect. A second was then given, and, in a short time, Wright was seized with vomiting and threw up a hundred dollars, note on the Chesapeake Bank of that city. In a brief space he threw up a second, a third and a fourth. He then confessed that he had swallowed each note separately while eating his dinner, by placing them in a piece of to-mato.

Local Intelligence.

Saturday Morning, Nov. 12th.

CARVER COUNTY RETURNS.—We have been furnished with partial returns from Carver County, which are published below. As we anticipated, the democracy have made gains in all towns but Young America and Dahlgren. This was occasioned mainly by a partial loss of the soldiers' vote, while doubtless a very few genuine conversions have been made. A judge of the election from Waconia made his return yesterday bringing with him ten soldiers' votes which were not polled, having arrived at the post office one day after the election. The same may be said of other towns, while the entire vote of Company "H," 9th Regiment, which enlisted from this county, were not taken by the commissioners. Another method of increasing the democratic vote was resorted to. Hollanders who were crippled and over forty years of age, were induced to declare their intentions, and instructed that the Union ticket was an anti-catholic institution. It seems that the Union candidate for county Auditor was not on the soldiers' tickets, and for this reason he could not run with the ticket. We have been told by Germans that their preference for Peter Weego was in consequence of his being able to talk that language. He is undoubtedly elected by quite a majority. If Wright county, as is reported, gives 250 Union majority the whole legislative ticket is elected. The following is the nearest estimate of the vote we are able to obtain. We shall be able to give the official vote next week.

Chaska, Union, 43. Dem 59. Carver, Union 29. Dem 43. Chanhassen, Union 45. Dem 55. Laketown, Union 34. Dem 78. Waconia, Union, 34. Dem 51. Watertown, Union, 67. Dem 34. Camden, Union 13. Dem 15. San Francisco, 33 Dem. 123. Young America, Union 44. Dem 19. Dahlgren 24 Union maj. No definite news from Denton or Hollywood, but they are reported to have gone democratic by about 20 votes each.

—Attention is called to the advertisement of the Moravian Academy, which will open its first session on Monday next. All patrons and friends of the school are especially invited to attend at the opening services, at about the hour of ten o'clock A. M. on Monday next. We doubt not that most of our citizens will be pleased to spend an hour or so in encouraging this new and important enterprise.

—Religious services will hereafter take place at half past six P. M. instead of the old hour.

—Winter seems to have dawned upon us. The Earth is robed in a mantle of white this morning, and ice is forming on the river.

—The Monitor did not come up last evening, and we presume she has made her last trip this season. Navigation will soon be closed entirely and the quiet of a long winter season; so we must now seek for entertainment and mutual improvement with our neighbors, and at our own firesides.

TAKEN UP.
By the undersigned on or about the 12th day of October 1864, a Roman Mare about three years old, the owner is requested to prove property, pay charges and take her away. Henry Wetzel, Laketown Carver County Nov. 12, 1864.

THE SEVENTH REGIMENT.
The following extract from a private letter from Col. Marshall, of the 7th Regiment, contains a concise but highly interesting rough sketch of the movements of the brigade comprising the 5th, 7th, 9th and 19th Minnesota Regiments:

When we returned from our second excursion into Northern Mississippi, we were hurried off to Arkansas, without any rest at Memphis. We had a long, hard march from Brownsville, Ark., to Cape Girardeau, Mo., 312 miles in 19 days on ten days ration. We were nine days on transports from Cape Girardeau to Jefferson City. Since then we have had a rapid, hard march, trying to get up with the cavalry in pursuit of Price. We got within hearing distance of the canon on the 22nd, when Pleasanton and Blunt were pitching into Price on the Big Blue, but did not reach the field in time. After that we did not attempt to overtake Pleasanton, but followed on along the Kansas State line, two or three

days, to be in supporting distance. We to-day resume the homeward march, having been tending that way, though not directly, for three or four days past. We move in separate brigades, making a grand guerrilla hunt on our return to the Mississippi river. Our brigade is to cross the Missouri at Arrow Rock and recross at St. Charles. We expect to reach St. Charles on the 13th inst.

Isn't it too bad that all the Minnesota soldiers in this command lose their votes. We are quite unrepresented in the deprivation. I feel almost like characterizing it as an outrage. Less soft terms have been freely used. We have at no time been beyond a long day's ride from Warrsburg at which point the commissioners were for several days, and the day they turned back, we were within thirty-five miles of that place. Between twelve and thirteen hundred votes are thus lost—majority for the Union ticket, I estimate of more than one thousand. It is quite too bad.

Dastardly Attempt to Poison General Sheridan.

NEW YORK, Nov. 8.
The Herald's Minneapolis correspondent says Gen. Sheridan accompanied by Col. Conestock of General Grant's staff, Captain T. W. Moore and others, while on a visit to Winchester, were suddenly taken with symptoms of poisoning from corrosive sublimate. The most ready antidotes were administered, and at last accounts they were doing well, though their recovery was at one time almost hopeless. The poison is supposed to have been contained in some cheese, of which all had partaken freely.

Instant in a dog.

A dog had been accused of killing sheep. He and his master were very fond of each other. It was a long time ere the owner could be made to believe the ill report about his favorite. At last he was convinced that poor Rover was guilty. As he could not bear to kill him, himself, he came into the room one morning and said, "Peter, you may take the dog, and break his neck and shut him up in the room and heard it. In an instant he darted out of the room and was off in a straight line. No calling or shouting caused him to turn his head. Straight as an arrow he shot across the lots and went out of sight. Every hour they expected him back. At night he would certainly come. But no; he never returned. Many months after this his master was riding on horseback in a wild, lonely place. Just as he came home from the banks through which the road had been cut, he saw poor Rover standing on one of the banks. His heart yearned toward the old friend, and he spoke to him very kindly. But Rover's heart was hardened. He gave one growl, snapped his teeth at his master, and again scampered off at the top of his speed. His master never saw him again. —Rev. John Todd.

STATE OF MINNESOTA COUNTY OF CARVER.

In the Matter of the Estate of Johnstone Unger deceased, intestate:
At a special term of the Probate Court held at Chaska, in and for said county, of Carver on the 1st day of November, A. D. 1864.
On reading and filing the petition of Hannah Unger, praying for reasons therein set forth, that letters of administration on said estate be issued to her.
It is ordered, that Monday the 25th day of November, A. D. 1864, at the office of Judge of Probate in Chaska, be assigned for the hearing of said petition, and all persons interested in said estate are requested then and there to appear and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered that the said petitioner give notice to all persons interested in said estate of this order by publishing a copy of this order to be published in the "Valley Herald" a weekly newspaper published at Chaska in said county for three successive weeks previous to the said day of hearing.

FRANK WARNER, Judge of Probate.
Dated, Chaska, Nov. 1st, 1864.

U. S. 7-30 LOAN

The Secretary of the Treasury gives notice that subscription to a will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semiannual interest at the rate of seven and three-tenths per cent. per annum, principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Special advantages of this Loan.

It is a national savings bank, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its deposits in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

Convertible into a six per cent. 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum. For the current rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. S. stock was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation.

On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country. It is believed that no securities offer so great inducements to holders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositories, and by the

FIRST NATIONAL BANK OF SAINT PAUL.

And by all National Banks which are depositaries of public money, and ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford every facility to subscribers.

PRESIDENTIAL CONTEST.

In the returns given last week, although the election of Mr. Lincoln was evident, the State of New York was somewhat in doubt, and the State of Missouri was declared to have gone democratic. Full returns show that the democracy were not only defeated in New York, by 9,000 majority, but that Missouri, a Slave State, has gone for Lincoln by about 10,000 majority. Never was such an overwhelming rebuke administered by the people to the sham democracy of the present day. McClellan receives but 21 votes in the electoral college where 231 votes are to be cast, leaving 210 to be thrown in favor of Abraham Lincoln the representative of Union and universal liberty. It is a matter of great congratulation that the American people have demonstrated the feasibility of a republican form of government even in times of imminent national danger, when the passions of the masses are naturally moved toward individual safety quickened by the daily announcement of so many fatal casualties in the present war. The country, one and indivisible, seems yet to be uppermost in the heart of our countrymen. The desire of the people to see the bone of contention swept from off the face of the nation is about to be consummated. Congress will be able to pass a constitutional amendment, abolishing slavery from the United States forever, and Missouri has so far changed the complexion of her public men, that a convention will probably be called for the purpose of declaring her a free State. The amendment to the constitution would have that effect upon Missouri, but the willingness of her own people to take the matter in hand shows that the tide in favor of freedom to all has fairly set in. The grand policies of the Government being heartily endorsed by the people, we have now but to disperse the rebel armies, and our summers of war and bloodshed will be followed by a permanent peace, a united Government, a Government whose resources will swiftly develop and pay our least indebtedness, and lastly a Government which will never again be eclipsed by the dark and damnable shadow of human slavery.

Report of the Rebel Secretary.

NEW YORK, Nov. 11.
The COMMERCIAL'S Washington special insists Gen. McClellan has resigned his commission in the army and that the resignation was received at the War Department yesterday. His letter is brief and pointed.
The report of the rebel Secretary of the Treasury is very doleful. He says he can only negotiate \$135 in currency, equal to \$6 specie for \$100,000 Confederate bonds.

One of Pap Price's Trains Captured.

NEW YORK, Nov. 12.
Reports from Little Rock, say that Capt. White, of Steele's Army, on the 23d ult., after a hard fight of four hours captured an entire rebel train of 35 wagons, 200 horses and \$11,000 in money and scattered to the mountains the force accompanying this train. He had probably been sent a head of the main portion of his retreating army by Price with the design of saving it.

Furloughs to be Revoked.

WASHINGTON, Nov. 12.
It is officially announced that the efficiency of the army in the field requires that the furloughs of all the regimental officers and enlisted men from duty, shall terminate on the 14th instant. Provost Marshals are required to take measures to have such officers and soldiers returned to their proper commands.

SHERMAN.

NEW YORK, Nov. 15.
The HERALD has a sketch of the movements of Sherman and Hood since September, when Hood commenced his flank movement. By November, says the HERALD, the army of the Tennessee had left Rome and was en route to Atlanta.
On November 4th the 5th, 14th 15th, 16th, 17th and 20th corps had been concentrated at the last named city, and rapid preparations were being made to begin the march. Sherman felt in the highest spirits and telegraphed his intention in these remarkable words: "Hood has

crossed the Tennessee. Thomas will take care of him and Nashville, while Schofield will not let him into Chattanooga. Alabama, Georgia and South Carolina are at my mercy, and I shall strike. Do not be anxious about me. I am all right."

This is his adieu. Rebel papers already announce that he has started on his march. Where is he going? Andersonville, where the rebels have 20,000 prisoners penned up like hogs, lies in his way.

But a few days ago Sherman wrote to the President of the St. Louis Sanitary Commission:

"I thank you for the prompt fulfillment of the request to send supplies for our prisoners at Andersonville. Things have changed since and I may be able to go in person to deliver these articles to the prisoners."

St. Louis, Nov. 15.

A gentleman from Sherman's headquarters, at Kingston, Georgia, on the 9th, says that the General is, by this time, a considerable distance on the war path. His army consists of the 14th corps, Gen. Jeff. C. Davis' the 10th, Gen. Osterhaus' 17th, Gen. Blair' 23th, Gen. Slocum' 15,000 cavalry under Kilpatrick, and a brigade of artillery to be added, making a total force of between 50,000 and 60,000 men, splendidly equipped and supplied with every appliance of war.

All public buildings, depots, manufactories, &c., in Atlanta, were rendered worthless, as well as the railroads north and south of the city. All the surrounding defensive works were destroyed. There is to be no turning back, and nothing left behind of value to the enemy.

SOUTHERN NEWS.

Rebel Papers Discussing the Peace Question—Jeff Davis' Message.

NEW YORK, Nov. 10.
A correspondent of the Charleston Mercury regards the expressions of peace and others as intimating surrender, and they have fallen upon reflecting minds with a shock as electrical as lightning.
The Montgomery Mail urges the convention of all the States.
The Macon Confederacy regards the discussion of the peace question as impolitic on the part of the rebels.
The anticipated attack on Wilmington is discussed by all the papers. They claim the defenses are very strong but regard the situation with anxiety.
The barbarities practiced on Union prisoners it is understood are repeated at Florence, South Carolina.
The Montgomery Mail, in an article advocating a convention of all the States, says, referring to the meeting of the rebel Congress of the 7th: "The weapons are now in the hands of Congress; the States can do nothing; the people can do nothing; the President will do nothing. Congress alone has the power by its wisdom to strike a blow for peace. If it would reassure the heart of the whole country it had better act."
A late Savannah paper chronicles a fire in Charleston by which a large number of mechanical shops were destroyed, together with tools which cannot be replaced. A large stock of leather, small arms and cannon were also destroyed.

Some of the Richmond papers comment very severely on Jeff Davis' message, charging him with obscurity in those portions of it referring to the arming of slaves and the proposed interference with the press.

The public debt is stated at \$1,147,970,268.
Davis pronounces Sherman, Grant and Banks all failures, and declares that Atlanta and Richmond are not vital points. The fall of Richmond, Wilmington, Charleston, Savannah and Mobile would not conquer the Confederacy. The independence of the Confederacy would secure peace.

STATE NEWS.

SCHOOL LANDS—THE FUND

The sale of school lands for 1864, which closed on Friday, was remarkably successful, and has added largely to the magnificent fund which is being secured for the cause of education.

Auditor McLath visited and sold lands in Dakota, Goodhue, Wabashaw, Winona, Houston, Fillmore, Olmsted, Dodge, Steele, Rice, Waseca, Blue Earth, Faribault, Le Sueur, Carver, Scott, Hennepin, Anoka, Washington and Ramsey Counties. One hundred thousand acres were placed in the market, and of this amount 41,588 were sold, bringing \$289,612. The terms of sale require immediate payment of fifteen per cent. of the purchase money on prairie, and seventy-five per cent. on timber land. The cash receipt of the sale, this year, have accordingly been \$91,576.74, the balance remaining, on interest, as a lien upon the land.

Including previous sales, 132,029 acres have been disposed of, and the total amount of the school fund paid in and on interest is \$842,021.20. There has been invested in bonds \$157,400, and \$86,377 still remains to be invested, which will make a total bond investment of \$243,777.

When we consider that there were a million and a quarter acres of school lands within the surveyed limits of the State, when the sales commenced three years ago, and that over a million acres still remain unsold, some idea can be formed of the magnificent fund that will be provided for our schools. \$70,000 were apportioned last year for the use of schools, and hereafter the sum will not be less than \$100,000, and will increase from year to year, as the fund is enlarged.

No special effort was made to force the sale of lands this season, and a number of tracts were withdrawn from sale on account of being occupied by soldiers who were not ready to purchase.

The largest sale was made in Goodhue county, where 5,530 acres brought \$32,801.50. The most cash received was from Faribault county, which paid \$14,904.91. Twenty acres of timbered land in Walnut Lake township, Faribault county, sold for \$731.87. In Guthrie, Faribault county, 192 acres of timber brought \$4,839, an average of \$25.25 per acre. The best of the land sold, however, from \$40 to \$55 per acre. 396 acres, near Owatonna, sold for \$88,133.

No State in the Union has a brighter prospect, as regards education, than Minnesota. All that is necessary is a proper appropriation of the immense sum provided, and the rising generations will not want for means to educate themselves.—Press.

RIVER ITEMS.

It is probably safe to say that the last boats of the season arrived yesterday. The ice gorged above Hastings Thursday night, and while it is not impossible it is hardly probable that the river will open again.

The Stella and Albany were the arrivals, and that famous side-wheel packet, the Monitor, cleared for below, bound "to do or die." The Stella is the old Stella Whipple, made as good as new and a good deal better. She has been entirely transformed in heat, trim low water craft. Always light, she has been made lighter, and now draws but ten inches. Her cabin and state room accommodations are the same as those on the Mollie Mohler, but she is more neatly finished. If she had been completed earlier, she would have been the favorite boat of the line, and will be another year if the river remains bottomsides up, thus requiring her services.

The hull of the John Rumsey was drawn out of the river, on the West St. Paul side, yesterday.

Wilder 609 McMillan	486
Hauulin 609 Berry	486
COUNTY AUDITOR.	
Waege 703 Powers	310

It will be seen by the foregoing table that the democratic majority for President is 126, and their majority for judges of the Supreme Court 124. Taking the vote for President as a basis for estimating the result, the democratic gain over the vote of Governor Miller last year is 83 votes. This increase, however has not been made up from the Republican ranks, as that party has cast 43 more votes this year than last, while at least as many more soldiers votes were not received in time to be polled. These facts justify us in saying that the Republican party has lost nothing in deserters to the opposition ranks, but is yearly numerically increasing, though a corresponding increase has taken place in the democratic party. As we have before remarked the ranks of the latter have been augmented by the votes of crippled and superannuated Hollanders of the catholic persuasion, who would not be liable to the draft, and who are as much the tool and slaves of a few German demagogues as the free air of Minnesota will permit. The aggregate vote polled last year for Governor was 929, while this year the entire vote cast for President was 1094.

—Fifty barrels of choice winter apples for sale by C. A. Warner.

—The Rev. Silas Hawley of St. Paul is expected to preach at the Moravian Church, tomorrow evening at half past six.

—We refer our readers to the advertisement of L. A. Godley to be found on the second page. Read it, and then make up your club for 1865.

—30 doz. winter hats for ladies' and children's wear, just received at Warners.

—Last Sunday night and during a portion of Monday we were visited with quite a respectable snow storm. Sleights were in requisition for a day or two, but we are again on bare ground.

—C. A. Warner has just received a large addition to his stock of dress goods, clothings, boots, shoes, &c., which he is selling at old prices at the Brick Block in Chaska, Nov. 17th 1864.

—The formal opening of the Academy at this place, was attended by a throng of scholars, patrons, and friends of the school on Monday last. A brief and appropriate lecture was delivered by the principal of the school, and several hymns were sung by the assembly. After these exercises the teachers proceeded to organize the classes. We learn that 70 scholars are already on the list and more are daily applying. The primary department is full to overflowing and no more scholars can be received. In the intermediate and higher classes scholars will still be received. Instrumental music will be taught as soon as their piano arrives, which unfortunately is ice bound at LaCrosse, but will be sent up by team without delay. The school begins with every omen of complete success.

—A large assortment of hoods, skating caps, rubies, sonnets &c., &c., just received at Warners.

—Next week Thursday is set apart by President Lincoln, and Governor Miller as a day of State and national thanksgiving. Services will take place, as usual upon such occasions, at the Moravian Church in the forenoon, at eleven o'clock.

—20 doz. men's and boy's fur and plush caps, just received at Warners corner of Chestnut and Levee Sts., Chaska Minn.

—A LITTLE MORE CIDER.—C. A. Warner has received a lot of cider direct from Michigan, which is for sale by the gallon or barrel.

Five deserters sentenced to Death.

Three bounty jumpers, and two ex-robbers have recently been convicted of desertion, by a court martial sitting in St. Paul.

The bounty jumpers are named Patrick Kelly, John Lennon, and Thomas J. Maroney. They came to the Provost Marshal's office on September 12th, and desired to enlist in the First Regimental Battalion, to the credit of the town of Pepin, Wabashaw county, which was then offering a high bounty. They claimed to come from Madison, Wis. Mr. Rohrer, the clerk who had charge of the business, noticed something suspicious about them, and told them he believed they were "bounty jumpers" and that they intended to desert. They protested that they did not, however. He warned them that if they did, they would surely be caught and shot. They nevertheless enlisted, were mustered in on the same day, and sent to Fort Snelling. They managed to desert from that post, however, very soon afterwards, and started for Chicago. Mr. Nelson J. March, Deputy Provost Marshal, pursued them, and arrested them between La Crosse and Milwaukee. They were brought back and tried, with above result.

The other two sentenced deserters are named Hoffman and Eastbrook. They are "ex-robbers," and are among those who came to Fort Snelling from Milwaukee last spring. They were placed in the Connecticut cavalry, which was afterwards sent to Fort Wadsworth. At Fort Ridgely, just after a payment, they deserted, and were arrested at Rochester Minnesota, while on their way East.

The bounty jumpers will be shot according to military custom on the 29th day of this month at Fort Snelling. The execution of the other two will take place on the 5th of Dec. next.

U.S. 7-30 LOAN

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semiannual interest at the rate of seven and three-tenth per cent. per annum, principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Special advantages of this Loan.

It is a national savings bank, offering a high rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

Convertible into a six per cent. 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. S. stock was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country. It is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositories, and by the

FIRST NATIONAL BANK OF SAINT PAUL.

And by all National Banks which are depositaries of public money, and ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and AFFORD EVERY FACILITY TO SUBSCRIBERS.

The Valley Herald.

W. D. Griswold, Editor and Publisher.

Chaska, - - - Minnesota.

Saturday Morning, Nov. 26th.

LATE NEWS ITEMS.

—A St. Louis paper says, "There are not less than 200,000 persons in Missouri this day, who are little better than paupers, not knowing where to get food to maintain them through the winter."

—The gambut Monarch and ram Switzerland have been sunk in the Mississippi, the former striking a rock and the latter being sugged. It is thought both can be raised.

—In accordance with general orders issued by Gen. Burbridge, commanding District of Kentucky, on Sunday afternoon five guerrillas were shot to death, at Henderson, Kentucky, in retaliation for the murder of Union men in that vicinity. Three of the victims were brothers, named Horton, the others Forest and Fry.

—Secretary Seward, recently went to Washington from Auburn, N. Y., by the Seneca Falls and Elmira route, and while waiting with his family in the depot at Watkins, for the train to Elmira, he was beset by a gang of ill bred, drunken Mc Clellanites from the village who had learned of his presence there, with groans, hisses, jeers and insulting epithets, to their own infamy and the disgrace of the place.

SHERMAN.

His Army Near Macon.

NEW YORK, Nov. 23.

The Herald's Washington special says: Advice received here to-day from Gen. Sherman's army show that he was, on the 19th inst., within thirty miles of Macon, and it is believed that by this time he has possession of the place. He has thus far met with but little opposition, and his campaign is progressing with all the success that could be desired.

The Times' Washington special says the latest intelligence from Sherman reports him within twenty-five miles of Macon, and his march was unopposed. We may therefore look for the capture of that place at any hour.

Macon is 104 miles from Atlanta, and one of the centres of the great railroad system of Georgia. It also contains an extensive arsenal and cap factory. Its capture will form the first of the series of brilliant results to be hoped for from Sherman's grand campaign.

NOW AND THEN.

Four years ago last Tuesday, one vote was given at Kingston polls for Abraham Lincoln. The man who gave that vote was Wm. Spivey, Jr., now a veteran in the 13th Missouri cavalry; and for giving it he was threatened with a coat of tar and feathers, and a free ride upon a rail. These were the arguments that were used by slavery, when it had the power, upon those who opposed it.

Last Tuesday, Abraham Lincoln received at Kingston polls seventy-six votes and but six were given against him. What a mighty change! The six votes were cast for a man who was known to be the friend of slavery; and yet, notwithstanding the polls were surrounded by men, with muskets in their hands, who had sworn eternal hostility to the accursed institution which has done so much to drape their houses with mourning, not a word was said nor a threat made against the men who cast those six votes. How different are the arguments used by Freedom and Slavery?—*Kings-ton (Mo.) Banner.*

The Rebel Soldiers Would Desert if Lincoln was Re-Elected.

The Wheeling (West Va.) Intelligencer, notices the arrival there of a party of twenty men from various parts of Southern Virginia, refugees from the rebel conscription. They were of the most respectable looking class of citizens, and the Intelligencer says:

"These men say that Early does not hope to occupy the Valley much longer. All the Government stores are being removed to Lynchburg. Two of the refugees of whom we speak, assured us that they had heard hundreds of rebel soldiers say they would desert if Lincoln was elected; that it was no use fighting any longer, and that they would not do it."

FROM CALIFORNIA.

—Official advices from Yokohama of October 25th, confirm the report of the opening of the Japanese Inland Sea by the allied fleet. The engagement was brief; the allies losing 12 killed and 54 wounded. Japanese lost from 200 to 300 killed and wounded.

Late advices from the Mexican coast represent the people as divided, and the

French gaining ground. Manzanillo will soon be occupied by the French.

The Governor has issued a proclamation calling for another regiment of California volunteers, in accordance with a requisition of the War Department, to be used to garrison the harbor defenses. Recruiting in San Francisco to fill up old regiments goes on bravely.

FROM THE SOUTH.

A dispatch, dated Savannah, 15th, says so far 8,100 rebel prisoners have been received. The delivery of Yankees commenced on Thursday.

The Charleston Mercury of the 14th, says since last report 250 shells have been thrown at Sumter and 102 at the city.

The Richmond Dispatch of Friday says the exchange of prisoners inaugurated at Savannah will be transferred to City Point.

The Bristol (East Tenn.) Register says the rebels captured and destroyed a train of cars with commissary stores at Morristown, on the 14th; also a wagon train consisting of military wagons, killing thirteen and capturing a number of Yankees.

The Richmond Sentinel says in Virginia new movements are on foot and in Georgia and Tennessee vast campaigns singularly complicated are in process of development.

Both the Sentinel and Dispatch insist that Sheridan has sent part of his army to Grant, and says Early has advanced to near Harper's Ferry. They are also in expectation of a grand movement against Richmond by Grant.

In the rebel Senate, a resolution was offered requesting Jeff. Davis to inform the Senate whether the United States Government had expressed a willingness to go into a Convention with the Confederate Government to negotiate a peace or consult on the best means of effecting a cessation of hostilities.

Saturday's Richmond papers contain no news from Georgia. They are undoubtedly under strict censorship to prevent a pause.

STATE ITEMS.

Military Matters.

Major Luther L. Baxter, of Shakopee, has been appointed Major of the First Battalion of Heavy Artillery.

By direction of the President, Assistant Surgeon J. A. Verrais, Second Minnesota Cavalry, is dishonorably dismissed the service of the United States for absence without leave, gross disobedience of orders and general inefficiency.

Second Lieutenant J. R. Putman, Third Minnesota Volunteers, having tendered his resignation, has been honorably discharged the service of the United States, to date Aug. 16, 1864, to enable him to accept an appointment as Lieutenant Colonel of the 42d U. S. colored troops.

DESERTERS.

The residents of some localities in the State have been loud in their protestations against the draft, and threats of resistance have been freely made. No trouble has yet occurred and to guard against any difficulty, squads of soldiers have been sent to Washington Lake, Sibley County, subject to the order of Deputy Provost Marshal Brydenthall, and Faribault, subject to the order of Deputy Provost Marshal Fuller. The Faribault squad are not designed for service in that town but for some localities in Rice County. A squad of soldiers was sent some time since to Lexington, Le Sueur County.—*Press 23d.*

ALL STAGE.

The boats between Winona and La Crosse suspended on Monday and Bar-bank's stages now run all the way through to La Crosse.—*Press 23d.*

RAILROAD ACCIDENT.

On Friday of last week, as the Winona & Rochester train reached the Eyota station the locomotive was thrown from the track by the displacement of a switch and turned on end. None of the cars or passengers were injured. Mr. Mosher the engineer escaped with slight injury. The locomotive was considerably damaged, but will soon be in running condition. A slow rate of speed at the time of the accident was all that saved the Railroad Company and passengers from a most disastrous calamity.—*Rochester Post.*

—We are informed by Col. Aldrich that two million dollars of stock in the Northern Pacific Railroad has been subscribed, and two hundred thousand dollars paid in. The stockholders will meet at the Melodeon, in Boston, on the 6th of December, to elect directors. As no one from Minnesota has taken any stock, the probabilities are no Directors will be chosen from this State.—*Press 24th.*

—Gen. Sibley has established a military station midway between Forts Abercrombie and Wadsworth, for the purpose of establishing winter communication between those posts. Capt. Whitcomb, of Company B, Independent Battalion, with thirty-five men, will garrison the new station.

THE WAR IN TENNESSEE.

Hood and Beauregard's Positions.

—Gen. Thomas' Movements.

NEW YORK, Nov. 23.

The latest intelligence represents Hood with two corps, numbering together about 35,000 men, to be still in the vicinity of Florence, Alabama, on the Tennessee River. There are reports that Dick Taylor has joined him with an additional force of 10,000. His latest movements do not indicate an intention of early offensive operations.

Beauregard, with the rebel General Stuart's corps, was still at Corinth, Miss., when last heard from.

General Thomas, commanding the Union army designed to check Hood's advance, is rapidly concentrating his force as though to make an attack on the rebels in some direction.

We now learn that there was only one building in Johnsonville, Tenn., destroyed. The place is still held by a division of Union troops.

The Rebel General Breckenridge is suspected of a design to march from East Tennessee, on an invasionary expedition into Kentucky, and Gen. Burbridge is making rapid dispositions of his forces to prevent the movement.
